COMMUNICATING YOUR HEALTHIER HOMES ADVANTAGE ONLINE COURSE BY RISE

WHAT IS IT?

The demand for more sustainable homes and buildings has never been higher. Millions of homeowners are implementing energy efficiency upgrades to save money, lower their carbon footprint, and make their homes more comfortable and healthy places to live. Residential building professionals that can talk to the next generation of health-conscious and planet-conscious consumers will be the ones to outlast their competitors.

In this course, **residential building professionals** will learn how to talk to clients about how your product or service aligns with their values. Gain practical digital marketing tips for turning informed homeowners into paying customers.

Course Objectives:

- Compare and contrast the different buyer personas and understand how to speak to what matters most to them.
- Translate product details to homeowner benefits.
- Develop marketing strategies to communicate sustainable knowledge and attract more business.
